1 Overview

The Mobius Portfolio Reporter automates the transformation of daily NAV report emails into formatted portfolio reports.

Note

Already set up? If you have previously installed the Portfolio Reporter, you only need to replace the `Portfolio Transformer.xlsxm` file in `C:\Mobius Reports\`. Skip to Section 5 (Daily Workflow) for usage instructions.

1.1 What This System Does

1. Monitors your Outlook inbox for incoming NAV report emails
2. Automatically saves Excel attachments to a designated folder
3. Transforms the data into a formatted portfolio report with Dashboard
4. Saves the completed report for review

1.2 Prerequisites

Before beginning setup, ensure you have:

- Microsoft Outlook (desktop application, not "New Outlook")
- Microsoft Excel with macro support
- Administrator access to your computer (for initial setup only)

2 Installation

2.1 Step 1: Run the Installer

1. Locate the file INSTALL.bat in this package
2. Double-click to run
3. If prompted by Windows Security, click **Run anyway**

Note

The installer creates the following folder structure on your C: drive:

- C:\Mobius Reports\Incoming – where email attachments are saved
- C:\Mobius Reports\Transformed – where completed reports appear
- C:\Mobius Reports\Archive – processed files are moved here

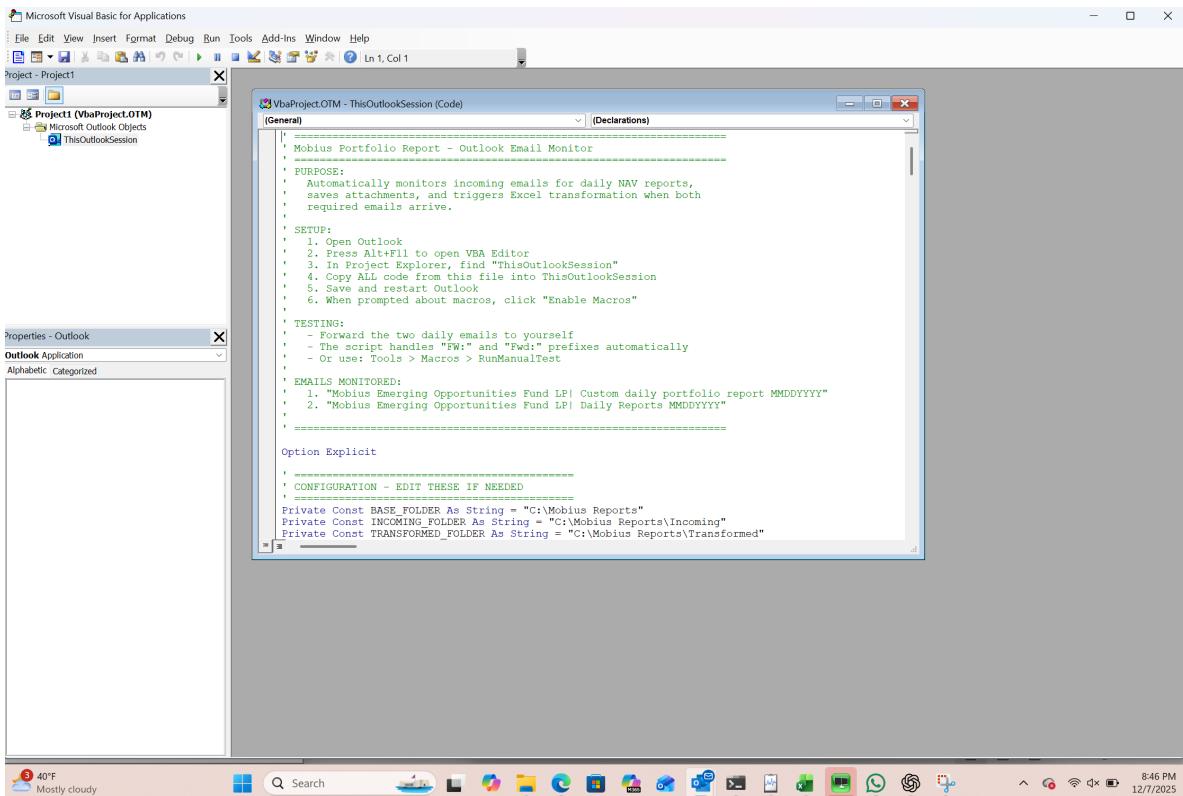

3 Outlook Configuration

This section configures Outlook to automatically detect and process incoming NAV report emails.

3.1 Step 2: Open the VBA Editor

1. Open Microsoft Outlook
2. Press **Alt + F11** on your keyboard
3. The Visual Basic for Applications editor will open

3.2 Step 3: Locate ThisOutlookSession

1. In the left panel, find **Microsoft Outlook Objects**
2. Click the arrow to expand it
3. Double-click **ThisOutlookSession**
4. A blank code window will open on the right

3.3 Step 4: Paste the Monitor Code

1. Open the file `files\OutlookMonitor.txt` from this package
2. Select all the code (**Ctrl + A**)

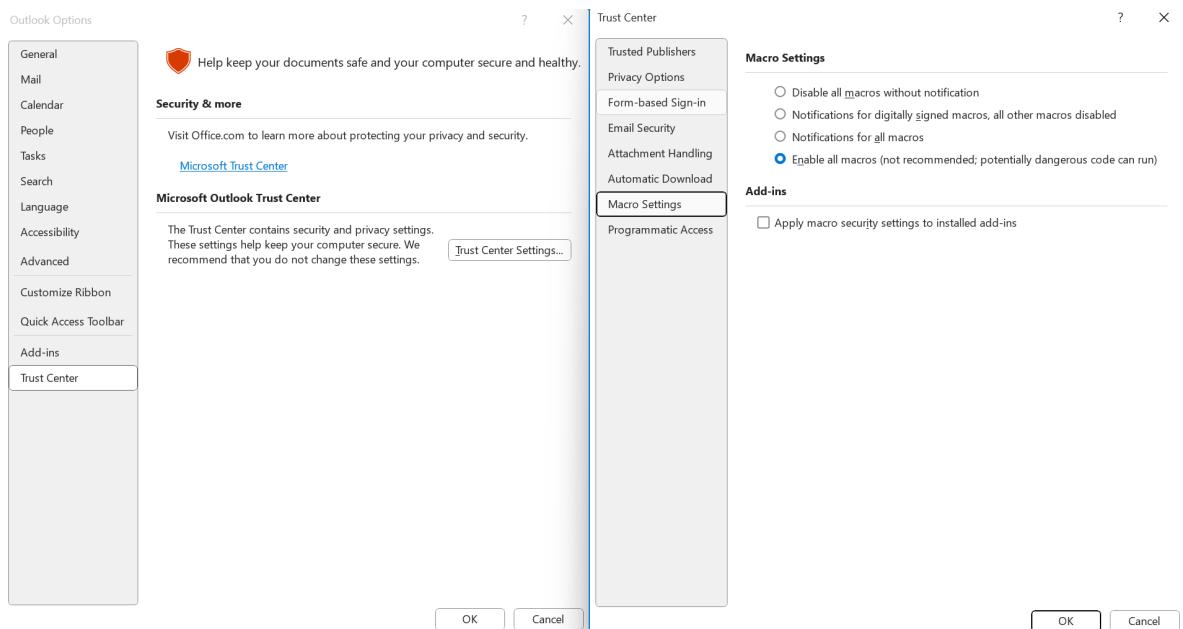

3. Copy the code (**Ctrl + C**)
4. Click inside the ThisOutlookSession window in Outlook
5. Paste the code (**Ctrl + V**)
6. Save (**Ctrl + S**)
7. Close the VBA Editor

Important

Make sure you copy ALL of the code from OutlookMonitor.txt. Partial code will cause errors.

3.4 Step 5: Enable Macros in Outlook

1. In Outlook, click **File** in the top menu
2. Click **Options** (bottom of the left panel)
3. Click **Trust Center** (bottom of the list)
4. Click **Trust Center Settings...**
5. Click **Macro Settings**
6. Select **Enable all macros**
7. Click **OK** twice to close
8. **Restart Outlook completely** (close and reopen)

4 Testing the System

4.1 Step 6: Verify Installation

Open File Explorer and confirm these folders exist:

- C:\Mobius Reports\Incoming
- C:\Mobius Reports\Transformed
- C:\Mobius Reports\Archive

Also verify that Portfolio Transformer.xlsx is present in C:\Mobius Reports\

4.2 Step 7: Test with a Sample Email

1. Ask a colleague to forward you a recent NAV report email
2. When the email arrives, Outlook should display a popup:
"Mobius Report Monitor is now active"
3. The system will automatically:
 - Save the Excel attachment to the Incoming folder
 - Open the Portfolio Transformer
 - Process the data
 - Save the result to the Transformed folder
4. Check C:\Mobius Reports\Transformed for your output file

5 Daily Workflow

Once configured, the system runs automatically. Your daily workflow is:

1. **Receive Emails** – Both NAV report emails arrive in your inbox
2. **Automatic Processing** – Outlook detects the emails and triggers Excel
3. **Review Output** – Check C:\Mobius\Reports\Transformed for results

The output includes a Dashboard tab with charts and KPIs, plus detailed Stocks and Options tabs.

Sample Output – Stocks Tab:

	Name	Ticker	Quantity	Unit Cost	Current Px	Total Cost	Mkt Value	% Diff (Cost)	Daily Chg %	P&L	YTD	Portfolio Wgt	Attribution

6 Troubleshooting

6.1 “Macros have been disabled”

- In Excel: File → Options → Trust Center → Macro Settings → Enable all macros
- In Outlook: Same path, then restart Outlook

6.2 Emails are not being processed

- Verify the code is pasted in ThisOutlookSession (not a different module)
- Confirm macros are enabled in Outlook
- Restart Outlook after making any changes
- Ensure you’re using Classic Outlook (not “New Outlook”)

6.3 Report not generating

- Both daily emails must arrive before the report generates
- Check C:\Mobius Reports\Incoming for the attachment files
- Ensure Portfolio Transformer.xlsx exists in C:\Mobius Reports

For additional support, contact Jacob.
